CANADIAN AERONAUTICS AND SPACE JOURNAL

Index to Volume 15

No. 1 January:	p 1-36
No. 2 February:	p 37-72
No. 3 March:	p 73-104
No. 4 April:	p 105-148
No. 5 May:	p 149-204

No. 6 June:	p 205-244
No. 7 September:	p 245-286
No. 8 October:	p 287-346
No. 9 November:	p 347-386
No. 10 December:	p 387-430

	PAGE		PAGE
A			
Abel, G. C.: Engineering Assessment and Flight Testing of Aircraft Systems	105	Application of Infrared Measuring Techniques to the Remote Sensing of Water Surface Temperature: M. Weiss	165
Accident Investigation in Canada, Aircraft: W. M. Johnson	113	Application of Self-Contained Navigation Systems in Worldwide Long Range Navigation, The: W. W. Moss	173
ACV Development and the Operator: A. B. German	15	Atomic Clocks: J. Vanier	365
ACV Legislation: J. Doherty	13	Atmospheric Circulation and Variability at Proposed SST Flight Levels: R. M. McInturff and F. G. Finger	255
ACV, The Hovermarine HM2 — The First Production Sidewall: R. L. Trillo	73	B	
Advances in Satellite Communications and Their Influence on Ground Station Design: C. D. Hughes	387	Battery Design for Aerospace Power Supplies: J. L. Lackner, T. E. King and R. L. Haines	393
Aéroglosses, La Technique Française des: D. Pont	47	Bird Impact Resistance of Polyurethane Foam, Tests on the: H. S. Fowler	221
Aerosols in the Stratosphere: G. M. Shah	321	Black Brant Single Stage Rockets, Non-linear Dynamic Instability of: J. Huva	179
AGARD Announcements	375, 425	Book Reviews:	
Air Canada's Flight Safety Organization: T. C. Woodhouse	117	L'Aérodynamique du vol de l'avion: A. Boisson	332
Aircraft Accident Investigation in Canada: W. M. Johnson	113	Aircraft Down: R. J. Mokler	62
Air Cushion Technology Supplement	121	Apollo Spacecraft, A Chronology, The. Vol. 1 (NASA-SP4009): I. D. Ertel and M. L. Morse	332
ACV Technology Programs at Aerojet-General: R. W. Muir	135	Astronautics and Aeronautics, 1967 (NASA-SP4008): Chronology on Science, Technology, and Policy	332
Evolution of Integrated Lift, Propulsion and Control in the Aeromobile Air Cushion Vehicle, The: W. R. Bertelsen	124	Astronautics Dictionary, German-English, English-German: C. J. Hayman	232
Industrial Applications of Air Cushion Technology: P. H. Winter	130	Avionics Navigation Systems: M. Kayton and W. Fried	378
Influence of Plenum Chamber Obstructions on the Performance of a Hovercraft Lift Fan, The: G. Wilson, D. J. Myles and G. Gallacher	132	Commercial Utilization of Space: J. R. Gilmer, A. M. Mayo and R. C. Peavey	378
Requirements for a Canadian ACV Industry: R. G. Wade	126	Flying is Safe — Are You?: W. B. Hansen	376
Review of Canadian Government Options for Future Action in the Development of Air Cushion Technology: I. G. Lochhead	136	Introduction to Space Science, 2nd Ed.: W. N. Hess and G. D. Mead	231
Skirt Design for Small Hovercraft: J. A. Eglén	128	Mechanics of the Solid State: F. P. J. Rimrott and J. Schwaighofer	61
Use of Glass Reinforced Plastics for Hovercraft Structures, The: A. Marchant	122	Metal Fatigue: Theory and Design: A. F. Madayag	232
Air Registration Board and Hovercraft, The: S. Gardner	55	Methods of Astrodynamics: P. R. Escobal	377
Alcock and Brown — The Skies Proclaim Their Achievement: W. R. Meredith	205	Physical Basis of Metal Fatigue, The: P. J. E. Forsyth	331
American Airlines and the Noise Problem: F. W. Kolk, J. D. Graef, R. K. Ransone, R. J. Linn and G. A. Nelson	215	Plasticity: Theory and Application: A. Mendelson	231
		Proceedings of the International Congress on Subsonic Aerodynamics 1967 — Annals of the New York Academy of Sciences Vol. 154, Art. 2: T. L. Hall	232

	PAGE		PAGE
Project Gemini, A Chronology (NASA SP-4002): J. M. Grimwood, B. C. Hacker and P. J. Vorzimmer	332	F	
Radars — New Concepts: M. H. Carpentier	378	Feasible Depth of Underwater Towed Systems, The: J. A. Tremills	359
Science, the Public and the UFO: A. Bray	233	Finger, F. G., and R. M. McInturff: Atmospheric Circulation and Variability at Proposed SST Flight Levels	255
Space Research Vol. VIII: A. P. Mitra, L. G. Jacchia and W. S. Newman	61	Flight Planning, New Techniques in Airline: L. Simpson	315
Takeoff into Greatness: G. Loening	232	Flight Safety Organization, Air Canada's: T. C. Woodhouse	117
Telecommunications and the Computer: J. Martin	376	Flight Testing of Aircraft Systems, Engineering Assessment and: G. C. Abel	105
Theory of Thin Shells: F. I. Niordson	331	Flow Separations on Upswept Rear Fuselages, Three-Dimensional: D. J. Peake	399
Voyage to the Planets: E. Burgess	377	Fowler, H. S.: Tests on the Bird Impact Resistance of Polyurethane Foam	221
Booms for Gravity Gradient Stabilization — A Progress Report, Deployable: J. D. MacNaughton and E. R. Grimshaw	371	Free Flight Simulation from Mach 1 to Mach 30 in the Hypersonic Range: P. Solnoky	347
Brown, L.: The Changing Face of Production — The Use of Numerical Control in Manufacturing	247		
C		G	
Canadian Aerospace Abstracts	59, 187, 327, 423	Gardner, S.: The Air Registration Board and Hovercraft	55
Carbon Fibre Reinforced Plastic Components for Aerospace Use: M. W. Jones	211	German, A. B.: ACV Development and the Operator	15
CASI Log 29, 63, 97, 141, 191, 235, 261, 333, 379, 426		Greenwood, A. H. C.: The Management of Large European International Programmes	1
Changing Face of Production — The Use of Numerical Control in Manufacturing, The: L. Brown	247	Grimshaw, E. R., and J. D. MacNaughton: Deployable Booms for Gravity Gradient Stabilization — A Progress Report	371
Churchill Research Range and Canada's Satellite Program, The: I. A. Stewart	307	Ground Station Design, Advances in Satellite Communications and Their Influence on: C. D. Hughes	387
Cleary, W. A., Jr., and D. H. Whitten: United States Requirements for Commercial Surface Effect Ships	51		
Clocks, Atomic: J. Vanier	365	H	
Collins, J. A.: The Satellite — Canada's Unique Requirements	9	Haines, R. L., J. L. Lackner and T. E. King: Battery Design for Aerospace Power Supplies	393
Communications — The Outlook for the Future: E. W. Kierans	149	Hannan, W. M.: Development of the L-1011 Requirements	409
Computers in Maintenance Control: W. Q. Nicholson	225	Harris, J. H.: An Experimental Facility for High Speed Underwater Towing Research	417
D		Hovercraft, The Air Registration Board and: S. Gardner	55
Deployable Booms for Gravity Gradient Stabilization — A Progress Report: J. D. MacNaughton and E. R. Grimshaw	371	Hovermarine HM2 — The First Production Side-wall ACV, The: R. L. Trillo	73
Detection of Explosive Sabotage in Aircraft Crashes: H. P. Tardif and T. S. Sterling	19	Hughes, C. D.: Advances in Satellite Communications and Their Influence on Ground Station Design	387
Development of the L-1011 Requirements: W. M. Hannan	409	Huva, J.: Non-linear Dynamic Instability of Black Brant Single Stage Rockets	179
Doherty, J.: ACV Legislation	13	Hypersonic Range, Free Flight Simulation from Mach 1 to Mach 30 in the: P. Solnoky	347
Dyment, J. T.: The President's Message	245		
E		I	
Engineering Assessment and Flight Testing of Aircraft Systems: G. C. Abel	105	Infrared Measuring Techniques to the Remote Sensing of Water Surface Temperature, Application of: M. Weiss	165
European International Programmes, The Management of Large: A. H. C. Greenwood	1		
Experimental Facility for High Speed Underwater Towing Research, An: J. H. Harris	417	J	
Explosive Sabotage in Aircraft Crashes, Detection of: H. P. Tardif and T. S. Sterling	19	Jets and Wall Jets, The Prediction of Turbulent: B. G. Newman	288

	PAGE		PAGE
Johnson, W. M.: Aircraft Accident Investigation in Canada	113		
Jones, M. W.: Carbon Fibre Reinforced Plastic Components for Aerospace Use	211		
		K	
Kierans, E. W.: Communications — The Outlook for the Future	149	King, T. E., R. L. Haines and J. L. Lackner: Battery Design for Aerospace Power Supplies	393
Kolk, F. W., et al: American Airlines and the Noise Problem	215		
		L	
Lackner, J. L., T. E. King and R. L. Haines: Battery Design for Aerospace Power Supplies	393	Legislation, ACV: J. Doherty	13
L-1011 Requirements, Development of the: W. M. Hannan	409		
		M	
MacNaughton, J. D., and E. R. Grimshaw: Deployable Booms for Gravity Gradient Stabilization — A Progress Report	371	Maintenance Control, Computers in: W. Q. Nicholson	225
Management of Large European International Programmes, The: A. H. C. Greenwood	1	Management, The Process of Adaptation and its Implications for: A. Porter	41
Managing Scientific and Professional Personnel, Theory of: J. C. Sawatsky	37	Manufacturing, The Changing Face of Production — The Use of Numerical Control in: L. Brown	247
McInturff, R. M., and F. G. Finger: Atmospheric Circulation and Variability at Proposed SST Flight Levels	255	Meredith, W. R.: Alcock and Brown — The Skies Proclaim Their Achievement	205
Moss, W. W.: The Application of Self-Contained Navigation Systems in Worldwide Long Range Navigation	173
